## EDUCATION

- **G.H. Rasoni GHRCEMP (SPPU Affiliated), Pune** Maharashtra, India  
*Bachelor of Technology - Computer Engineering; CGPA: 7* Sep 2024 - June 2027 (Expected)
- **Government Polytechnic, Gondia** Maharashtra, India  
*Diploma in Computer Engineering; Percentage: 76.23 SGPA: 81* Sep 2021 - June 2024
- **Top Convent High School, Nagpur** Maharashtra, India  
*SSC (10<sup>th</sup>); Percentage: 77* May 2021

## INTERNSHIP EXPERIENCE

- **Anishree Technologies LLP** Remote/Onsite  
*Intern - Web Developer (Django & Python)* 2023
  - **Backend Development:** Built and experimented with web applications using Python and the Django framework.
  - **Learning & Contribution:** Understood how to structure backend logic, connect it with databases and work with views, URLs and templates.
  - **Outcome:** Strengthened fundamentals of web development and improved confidence in working with production-like codebases.
- **UEF EdTech Pvt. Ltd.** Remote/Onsite  
*Full Stack App Developer - Android (Training)* 2023
  - **End-to-End Android Development:** Learnt the step-by-step process of Android app development from planning to deployment.
  - **Responsibilities:** Worked on app structure design, basic UI/UX, coding, testing and understanding deployment workflows.
  - **Learning:** Gained a clear picture of how real Android applications are built and shipped in an industry-like environment.
- **Startup - Marketing & Research** Remote/Onsite  
*Marketing & Research (Intern / Team Member)* 2024 - Present
  - **Market Research:** Supported research on audience behaviour, competition and positioning for early-stage products.
  - **Business & Strategy:** Assisted in planning marketing approaches and identifying opportunities for growth using data-driven thinking.
  - **Skills Applied:** Used adaptability, attention to detail and communication skills to contribute to team discussions and strategy.

## PROJECTS

- **PollutX** Self-initiated Project  
*Builder & Concept Lead* 2024 - Present
  - PollutX is a community-based platform idea that connects influencers, NGOs, startups and citizens to collaborate on pollution control and environmental awareness.
  - Responsible for planning platform features such as collaboration matching, campaigns, analytics and community engagement.
  - Learning business validation, survey design and competitor research while shaping the product roadmap.
  - Technologies and Tools considered - Web development stack (HTML, CSS, JS), research, planning tools and documentation.
- **Android Learning App Prototype** UEF EdTech Pvt. Ltd.  
*Full Stack App Developer Trainee* 2023
  - Worked on an Android app prototype as part of training, focusing on understanding layouts, navigation and basic functionality.
  - Applied RLCA: took responsibility for implementing screens, learnt Android Studio workflow, contributed to improving UI flow and achieved a working prototype.
  - Technologies and Tools used - Android Studio, Java/Kotlin (as applicable), XML layouts, basic testing tools.
- **Django Web Application Practice Project** Anishree Technologies LLP  
*Intern - Web Developer (Django & Python)* 2023
  - Built practice web modules to understand URL routing, views, templates and database operations in Django.
  - Followed RLCA: took responsibility for implementing features, learnt MVC-style architecture, contributed to improving code structure and achieved a functional demo application.
  - Technologies and Tools used - Python, Django, HTML, CSS, basic SQL, Git.

## SKILLS

---

- **Programming Languages:** C, Java, Python, SQL
- **Development:** Web Design, Android Development, Django, Databases, Linux, Qiskit (Basics)
- **Business & Tools:** Business Planning, Business Strategy, Business Development, Business Management, Project Management, Financing of Business, Accounting, Spreadsheets
- **Soft Skills:** Management Skills, Research Skills, Problem Solving, Critical Thinking, Marketing, Teaching, Team Leadership, Teamwork, Communication, Writing, Attention to Detail, Quick Study, Easily Adaptable

## POSITION OF RESPONSIBILITY

---

- **PollutX** Self-initiated  
2024 - Present
  - *Founder & Builder*
  - Took initiative to conceptualize and lead development of PollutX, a platform focused on environmental collaboration.
  - Followed RLCA: handled responsibility for vision and planning, learnt product validation and research, contributed by designing features and roadmap, and achieved clarity on long-term direction of the project.

## CERTIFICATIONS

---

- **Certification in Business Skills (CBS), IGNOU:** Enrolled in 2024; exam scheduled for December 2024. Focus on business fundamentals, communication and management skills.
- **Web Developer – Django & Python, Anishree Technologies LLP:** Industrial training covering Python, Django and practical web development.
- **Full Stack App Developer – Android, UEF EdTech Pvt. Ltd.:** Training program covering Android app development lifecycle from planning to deployment.

## HONORS AND AWARDS

---

- Completed Diploma in Computer Engineering from Government Polytechnic Gondia with 81% in the final semester.
- Secured admission into B.Tech Computer Engineering at G.H. Raison College of Engineering and Management, Pune (SPPU affiliated).

## OTHER INTERESTS/EXTRACURRICULAR ACTIVITIES

---

- Environmental awareness and involvement in ideas/projects like PollutX.
- Startups, business planning and learning about entrepreneurship.
- Writing, teaching/explaining concepts and continuous self-learning.
